

Student Graduation Rate

Graduation rate (taken from United States Department of Education): Measures the progress of students who began their studies as full-time, first-time degree- or certificate seeking students by showing the percentage of these students who complete their degree or certificate within a 150% of "normal time" for completing the program in which they are enrolled. Graduation rate is calculated as: the sum of students with a Graduated status divided by the total number of students in the cohort.
